CAREER OBJECTIVE

Motivated Information Science and Engineering graduate with hands-on experience in Python, SQL, machine learning, and data analysis, seeking a fresher Data Scientist or Data Analyst role. Passionate about turning data into practical, insight-driven solutions and eager to apply my skills in a team that values learning and innovation while continuously growing as a data professional.

EDUCATION

Rao Bahadur Y. Mahabaleshwarappa Engineering College July 2026

Bachelor of Engineering – Information Science and Engineering *Ballari, Karnataka*

CGPA: 7.87

TECHNICAL SKILLS

Programming & Query Languages: Python, SQL

Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Power BI, Tableau, Excel

Machine Learning: Scikit-learn, Regression, Classification, Model Evaluation

Deep Learning: TensorFlow, Artificial Neural Networks (ANN), Convolutional Neural Networks (CNN)

Data Preprocessing: Data Cleaning, Exploratory Data Analysis (EDA), Feature Engineering

Databases: MySQL Workbench, MongoDB (NoSQL)

Web Development: Flask, HTML5, CSS3, JavaScript

Deployment & Tools: Git, GitHub, Gradio, Vercel, VS Code

TRAINING & INTERNSHIP

Prinston Smart Engineers | Data Science Intern Bengaluru, India | Jan 2026 – May 2026

• **Skills Covered:** Data Cleaning, Preprocessing, Feature Engineering, Data Analysis, NLP (TF-IDF), Scikit-learn; collaborated on data-driven projects to support decision-making.

• **Machine Learning:** Built and evaluated ML models using Scikit-learn; improved model performance through feature optimization.

Data Mites | Professional Training: AI Engineer Bengaluru, India | Ongoing

• Undergoing intensive training in Data Science and AI Engineering (10-month, 400+ hour program, IABAC and NASSCOM-aligned)

• Covering topics including Python, Statistics, Machine Learning, Feature Engineering, SQL, MongoDB, and Business Intelligence tools; upcoming focus on Deep Learning, Computer Vision, NLP, Generative AI, and Agentic AI

• Hands-on practice on real-world problem solving and capstone projects

CERTIFICATIONS

• **Data Science Internship |** Prinston Smart Engineers | Internship ID: PSE19352 Certificate

• **Data Analytics Job Simulation | Deloitte** Certificate

• **100 Days of Code the Complete Python Pro Bootcamp|** Udemy Certificate

• **Python for Data Science and Machine Learning Bootcamp |** Udemy Certificate

• **The Complete Full-Stack Web Development Bootcamp|** Udemy Certificate

PROJECTS

Society Voice | Full-Stack Web Application Nov 2025 – Jan 2026

• Developed a full-stack society management system (Flask, SQLite, HTML, CSS, JavaScript) in a team of 4, with CRUD for complaints, polls, alerts, and maintenance payments. • Built 30 REST API endpoints and a 10+ table relational SQLite database.

• Implemented role-based access control (Resident, Worker, Admin), admin-approved registration, a complaint lifecycle (Open → In-Progress → Resolved), image uploads, and payment verification.

Football Players Salary Prediction | Machine Learning May 2026

• Built an end-to-end Random Forest regression model on 40,791 player records (16 features) to predict football player salaries, achieving an R 2 score of 0.87 on a 20% test set.

• Performed data cleaning (currency and text normalization), label encoding of categorical features, and EDA using Seaborn and Matplotlib (correlation heatmap, boxplots, pair plots).

• Deployed an interactive Gradio interface for real-time salary prediction.

Video Games Sales Prediction | Machine Learning Apr 2026

• Built an end-to-end ML pipeline on 16,598 video game records (11 features); handled 271 missing values using median imputation and label-encoded categorical features.

• Compared Linear Regression, KNN, and Random Forest models; the Random Forest classifier achieved 99.4% accuracy on the test set.

• Deployed the model with Gradio for real-time predictions.
